The new internet technology, or web 2.0, that had developed from being a static interface to an interactive platform that enables users to create and share content, the internet has enriched (Laughey, 2010).

Page 549, second paragraph

This transition process may be measured by using sociological, cultural, economic or technical parameters that come out of the change and transformation in the country (Timisi, 2003: 89).

Page 550, sixth paragraph

Online or cyber behavior and culture may be universal, and it may also differ depending on the language and culture (Kittur, Chi, Pendleton, Suh, & Mytkowicz, 2007).

Page 550, last paragraph

... Wikipedia is preferred here because it is a unique collective intelligence site based on voluntary collaboration (Asutay, 2009).

Page 551, second paragraph

Given the web 2.0 mentality that Tim O'Reilly has described (Okur, 2013: 132), ...

Page 552, third paragraph

English Wikipedia contains 5,311,495 articles, and an average of 800 new articles are added to the list each day (Wikipedia, 2017). In Turkish Wikipedia, there are 287,689 articles (Vikipedi, 2017).
